WONDERFUL IS PLANT

Peculiarly sensitive to Magnetic and Electric Influences, Forecasting Atmospheric Changes and Earthquakes Far Ahead.

SON IN SERIOUS WAY

Although in a Dying Condition the Mother Thought Only of Her Boy and Begged Police to Save Him.

Pacific Grove, Cal., Nov. 5.—Information has been received here of the intended establishment of a rival weather bureau in San Francisco. In Cuba and Mexico there has been found a "weather plant," said to have extraordinary powers in forecasting not only atmospheric, but seismic disturbances. Its botanic name is abrus precatorius nobilis. Professor Josef Norvack, an eminent Austrian, recently arrived in England with twenty cases of these remarkable plants. They have been found peculiarly sensitive to magnetic and electric influences. When changes in these occur the twigs and leaves perform a peculiar and abnormal movement, by which, through definite significations, weather forecasts can be made from two to seven days ahead of rain or fog and earthquake forecasts made twenty-six days in advance over an area of 300 square miles. It also predicts volcanic eruptions and accumulations of fire damp in mines. Norvack will establish bureaus at San Francisco, Bombay and Tokio.

BATTLE OF BALLOTS.

What Was Said by Campaign Managers on the Day Before.

Washington, Nov. 5.—All day Monday and Monday night Republican and Democratic campaign managers in nearly every state predicted that their tickets would have, as a rule, increased votes. Except in the First district Democratic candidates for congress had no opposition.

In Illinois the Democrats expressed themselves confident of electing several congressmen. In the present congress they have but one of the twenty-one.

Many speeches were made Monday in Massachusetts, particularly in Boston. Moran, the Democratic, Prohibition and Independence League candidate for governor, made twenty-five brief speeches during the day and night at Boston.

West Virginia Republicans claimed four of the five congressmen and the legislature.

Indiana Republicans said it was only a question as to the majorities their congressional candidates would receive.

Both sides admitted that Delaware would be close.

Democrats and Republicans in Tennessee contended that their respective candidates for governor would be elected by from 20,000 to 30,000 majority.

Arkansas Democrats stated they would carry all seven congressional districts.

In Rhode Island both Democrats and Republicans insisted they would carry the legislature.

Pennsylvania Democrats, who have but one congressman, expected to elect several.

Connecticut Republicans and Democrats were both hopeful.

In Maryland the Democrats said they were sure of electing three congressmen. Conservative politicians endorse this prediction.

During fiscal year ending Aug. 31 there were 2,534 domestic corporations charters granted in Texas and 127 permits granted foreign companies.

Paul Hirsch of Chicago declared that while intoxicated he married his wife. She is suing him for separate maintenance. Hirsch says he has no recollection of the wedding. He has a salary of \$600 per month, and is worth \$5,000.

E. P. McCabe, a negro, assistant territorial auditor of Oklahoma, says there are in the new state 789,242 whites, about 90,000 Indians and 39,768 negroes. McCabe was formerly auditor of Kansas.

TROLLEY LINE MEN HERE.

Civil Engineer and Right-of-Way Man
Arrived Yesterday—Preliminary Survey Begins
Today.

W. J. McDaniel, civil engineer, and H. E. Chapman, right-of-way man, of Houston, and L. S. Bryant of Mexia, an assistant, arrived yesterday and at once began preparations for making the preliminary surveys of the Bryan and College trolley line. The work will begin actively this morning, and it is likely the route will be determined in a very short time.

The Eagle learns from a member of the local committee that Mr. Edward Kennedy has agreed to accept the route recommended by the committee, and we are further advised that one line of right-of-way having been offered free of cost, the committee will not under any circumstances agree to pay anything for right-of-way. We also learn that the first route surveyed will be on the west side of the I. & G. N. and H. & T. C. railroads, following the route offered as a donation to the enterprise.

This business like move on the part of the promoter, Mr. Kennedy, is very gratifying to the committee and to the people of Bryan, and indicates that no time is to be lost in getting the trolley line work under way.

WEEK'S ENGAGEMENT BEGUN.

The Payton Sisters' Comedy Co. began a week's engagement at the opera house last night, presenting "The Man Outside," a light problem play. The attendance was good and the audience appeared to be well pleased.

The specialties are numerous, varied and pleasing, lending an agreeable variety to the performance.

"Utah" will be the offering to-night. Playgoers should not miss the opportunity for amusement the week affords.

See advertisement for popular prices.

CHRISTMAS PHOTOS.

Have you realized how fast Christmas is approaching us? Only about six weeks, and everyone knows a photo of some dear member of the family is appreciated more than anything you can give. We have been making photos the last two months for Christmas presents. The sooner you come the better you will get as the Christmas rush will be greater this year than in the past owing to the prosperity of the country and the A. and M. college work coming in this fall instead of early spring as heretofore. New styles and many novelties will interest you. Also new styles in mouldings, frames and art pictures at Carter's Studio and Art Gallery.

REMARKABLE CAMPAIGN.

Took Over Seventy-Two Hours to Print
the Ballots.

New York, Nov. 5.—Monday witnessed the closing scenes in one of the most remarkable political campaigns in the history of this state. By midnight the last public word had been spoken and nothing remained but the story to be told by the ballots themselves. Who the hero of the tale was could not be forecasted with any certainty. Old-time methods of anticipating the results of the election had been rendered almost useless. Party lines in many sections of the state were almost if not quite obliterated. Political affiliations of a lifetime have been thrown aside.

Managers of Republican and Democratic and Independence League campaigns each announced himself convinced that his candidate would have a plurality of at least 200,000 votes.

Charles E. Hughes, Republican candidate for governor, addressed seven meetings in the afternoon and evening in various sections of New York. Mr. Hearst, the Democratic and Independence League candidate, addressed several.

Fears that ballots for use in Greater New York might not be printed in time for distribution as the result of delay arising from nomination contests in New York county were ended Monday. Early in the day the last 2,000,000 ballots required came from the press and work of distribution to polling places had begun. A little over seventy-two hours was consumed in printing the ballots.

SLAIN WITHOUT WARNING.

Norman E. Smith Shot to Death in

Alaska by Robert Reid.

Seattle, Nov. 5.—A special to the Intelligencer from Juneau, Alaska, says that Norman E. Smith, a Tenakee hotelman and former famous bicycle racer, has been killed at Tenakee Hot Springs by Robert Reid. The shooting was without warning. Smith is said to have had a bad reputation among miners. Reid claims to have been threatened by the hotelkeeper.

DENIED BY WOOD.

Story of Japanese Officer Being Arrested Declared Untrue.

Manila, Nov. 5.—The story that a Japanese army officer had been placed under arrest here for sketching certain of the fortifications of Manila harbor was denied Sunday by Major General Wood. No such arrest has been made and no Japanese have sketches of the

MAJOR GENERAL LEONARD WOOD.
fortifications. It is well known that since the American occupation Japanese have engaged in making maps of the forts. There is no existing law to prohibit them, although such laws were in force under the Spanish regime.

General Wood has just returned to Manila from a hunting expedition.

President Shot a Turkey.

Washington, Nov. 5.—While at Pine Knot, Va., President Roosevelt shot a wild turkey.

DENIED BY CLARK.

Pretended Interview He Declares Is
Absolutely False.
Butte, Mont., Nov. 3.—The Miner prints the following official statement from Senator Clark, wired from Laramie, Wyo., in denial of an interview alleged to have been given regarding his candidacy: "The pretended interview published in the Chicago Record Herald and in Denver papers, which

SENATOR W. A. CLARK.

quotes me as saying that I will accede to the wishes of my friends in Montana and stand for re-election is false. I did not see a newspaper reporter while at Chicago, nor authorize such statement."

PIANO FACTORY BURNS.

Loss Over Quarter of a Million Dollars
and Many Out of Work.

New York, Nov. 3.—Hundreds of men were thrown out of employment and a money loss in excess of \$250,000 was caused Saturday by a fire which destroyed the piano factory of the Jacob Bros. company, in West Thirty ninth street. About fifty firemen who were sent into the building during the early stages of the fire were forced to flee for their lives when barrels of oil in the cellar began to burn.

FIGHT IN SALOON.

Negro Soldier Killed and Proprietor of
the Place Wounded.

Kansas City, Nov. 3.—At Fort Bliss five miles from here, says an El Paso special to the Times, negro soldiers of the Twenty-fifth infantry fought in a saloon outside the reservation. Private Matthews was killed and Private Lewis and Alexander Johnson, a saloonkeeper, were wounded. Advices concerning the origin of the trouble are conflicting, but a card game is said to have prompted the affair.

FOUND IN FIELD.

Wealthy Man Robbed and Murdered
Head Being Crushed.

Pittsburg, Nov. 3.—The body of A. J. McMillan, sixty-five years of age, a manufacturer's agent, said to be quite wealthy, was found in a field near his home. That he had been robbed and murdered was evident as his head was crushed and his pockets rifled of everything they had contained.

GIVEN UP FOR LOST.

Barkentine Milton Was Forty Days
Overdue on Saturday.

Liverpool, N. S., Nov. 3.—The barkentine Milton, which was forty days overdue Saturday from Havana for Mobile, was given up for lost at this port, where she was largely owned. The passage ordinarily takes but six days. She was in ballast. Captain Ames Manthorn commanded the vessel in the absence of Captain McLeod of this port, one of her owners. The vessel was four years old and was 350 tons burden. She was fully insured.

CHURCH DESTROYED.

Chapel Also Consumed and a Fireman
Seriously Injured.

Brookline, Mass., Nov. 3.—The stone church of the First Parish Unitarian society, this town, together with the new chapel and annex known as Pierce hall, was practically destroyed by fire early Saturday. Lieutenant Allen of the fire department was seriously injured by falling walls. Loss is estimated at \$50,000.

CARRIED AWAY JAIL.

Halloween Crowd Took Structure a
Quarter of a Mile Away.

Madison, Wis., Nov. 3.—As the aftermath to Halloween a crowd of young men and boys carried away the jail at the village of Fair Oaks, adjoining Madison, and set the structure down on the lake shore, a quarter of a mile away.

FIFTEEN SPEECHES.

Vice President Fairbanks Orated That
Number of Times Saturday.

Indianapolis, Nov. 3.—Vice President Fairbanks made fifteen speeches Saturday. Starting at Terre Haute, he spoke in the southwest part of the state, closing at night at Evansville.

BY CARNES & WALLACE.

BRYAN, TEXAS, NOVEMBER 6, 1906

According to the entomologists the San Jose scale is of Chinese origin and a "yellow peril" to the fruit industry.

The Galveston News of Sunday contained a write-up of Bryan's educational and industrial interests together with pictures of the courthouse and Carnegie library. The article was prepared by Mr. S. M. Lesesne, a special correspondent of the News who recently visited Bryan.

Mississippi A. and M. College graduates visited the Texas A. and M. the past week in search of ammunition to fight the boil weevil. They were accompanied by W. F. Proctor of Houston, a student of the Texas A. and M. in the early '70's and now special agent of the agricultural department at Washington.

THE SAN JOSE SCALE.

Bulletin on It Being Issued by Agricultural and Mechanical College.

The department of entomology of the Agricultural and Mechanical College has just received from the press and is mailing out a bulletin of great importance and value to the fruit industry in Texas. It is Bulletin No. 87, by Prof. A. F. Conradi, and treats of the disease known as San Jose scale, which has recently appeared in the State and is threatening the very existence of the fruit and nursery business. The scale is definitely known to exist in a number of localities east of the 98th meridian and in at least one place west of that line. In how many other places the disease has made its appearance the State Entomologist has no means of knowing, as the funds at his command have been too limited to permit an extensive investigation.

The scale seems to have been imported from China and became a pest in the Santa Clara Valley in California about 1873. From there it was carried to New Jersey in a consignment of Kelsey plums, and was then scattered all over the country by the nurseries of that State. It multiplies with great rapidity, one pair being capable of producing three billion offspring during a single season. The insect fastens itself to the bark or fruit of the tree and sucks out all the sap and the tree quickly dies. It attacks almost every kind of fruit and ornamental tree, and also the small fruits and berries.

The bulletin suggests several remedies for the scale, mostly sprays and washes, and gives the result of experiments carried on during the last two winters. Among the remedies mentioned are lime-sulphur wash, whale oil soap, kerosene, crude oil, kerosene-water mixture and petroleum emulsion. The best results seem to have been secured from the lime-sulphur wash. The bulletin will be sent to any address on application.

KILLED ON LITTLE BRAZOS.

Hammer of a Shotgun Penetrated a Negro's Skull.

Saturday night at a negro supper on the Little Brazos river a negro named Billy Seymour was struck over the head with a single barrel shot gun and killed. The blow was directed with such force that the hammer of the gun penetrated Seymour's skull and he died in a few hours. The hammer was broken off and the gun stock also broken. Sheriff Nall, Deputy Sheriff Conlee, Acting County Attorney Bether and Justice Mitchell visited the scene on Sunday. No arrest has been reported.

WHAT IS CATARRH?

Simple Way to Overcome the Dangers of This Disagreeable Disease.

Catarrh is an inflammation of the mucous membrane of the nose, throat and lungs, with many annoying symptoms. In this climate there are few who do not suffer from this disagreeable disease, often in a chronic and dangerous state.

Fortunately, within the last few years, a simple and reliable treatment for catarrhal troubles has been found—Hyomei, a combination of healing and germ-killing balms, that when breathed through the neat pocket inhaler that comes with every outfit, reaches the tiniest cells in the respiratory organs, carrying its healing and health giving properties to every part where the catarrhal poison is present.

Used in this way, Hyomei kills all catarrhal germs; drives the poison from the system and heals all irritation that may be present in the mucous membrane.

If you have the ordinary catarrhal symptoms, such as offensive breath, burning pains in the throat, cough, raising of mucus, difficulty in breathing, sneezing, discharge from the nose, droppings in the throat, coughing spasms, etc., begin the use of Hyomei at once.

A complete Hyomei outfit costs but \$1, extra bottles if needed, 50 cents, and is sold by E. J. Jenkins under an absolute guarantee that it will cure catarrh or money will be refunded.

Mr. William Jenson, the student of the A. and M. college who was scalded while at work in the laundry some ten days ago, is slowly improving and it now seems reasonably safe to predict that he will recover. The scald was a very severe one, embracing about one-half of the body. The accident occurred through the bursting of a pipe filled with steam and boiling water.

Rev. W. S. Wheeler, the "Clown Preacher" and agent of the State Humane Society, spent Sunday in the city and preached twice on the streets. He is desirous of having a local humane society organized here, and says it is only a question of time until these societies will be found in every community. Rev. Wheeler learned the show business under Dan Rice and was in it for thirty years, being twenty years a clown.
